Office Action Summary

Art Unit: 1711

1. An amendment (paper no. 5) has been filed on Nov. 27, 2002.
2. Claims under examination are 1-15.
3. Rejection of claim 1 under 35 USC 112, second paragraph has now been withdrawn following appropriate amendment of that claim.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1 and 11 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 (as amended) encompasses subject matter, which is not supported by the specification. Applicants have not pointed out the portions of the specification, which support the said matter. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Same is the case with claim 11.

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
7. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mannschedel (USPQ 6126446) in view of Shoher et al (USP 5272184).
8. Applicant's arguments filed on Nov. 27, 2002 (paper no. 5) have been fully considered but they are not persuasive. Applicants' argument (on page 10 of above paper) that "prior art does not disclose or suggest newly added features of claim 1 & 11" is not persuasive because

Art Unit: 1711

instant claims are directed to a composition and not to a process. Prior art teaches the claimed ingredients which make the claimed composition.

9 **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
